GOAL

To work as a junior frontend Web Developer/ intern. Collaborate with other software developers and UI/ UX designers to help design and implement new features and improve on old ones. Looking for challenging opportunities to step-out of my comfort zone, stretch myself, show my potential. Improve usability and optimize applications. To help review and maintain codes on an ongoing basis.

SUMMARY

Started as a self-taught developer, then graduated from a web programming boot-camp. Looking to strengthen current skills and acquire new ones. Able to work in frontend developer roles. Passionate open-source contributor, very communicative and emotionally intelligent. Able to support the development of applications. Willing to keep in touch with latest trends in web development.
